WORK EXPERIENCE

Web Lanka (Pvt) Ltd | Nugegoda, Sri Lanka **Feb 2025 to Present**

Senior Full-Stack Engineer

- Led development of scalable web and e-commerce platforms using Next.js and React.js, focusing on performance, SEO, and modular frontend architecture.
- Built secure and maintainable backend systems using Laravel (PHP) and Node.js, leveraging MVC architecture, MySQL, Redis, and GraphQL to support scalable applications and custom headless CMS solutions.
- Designed and implemented RESTful and GraphQL APIs to enable clean frontend–backend separation and long-term scalability.
- Developed cross-platform mobile applications using React Native and introduced automated testing with Python to improve code reliability and reduce regressions.
- Implemented CI/CD pipelines with GitHub Actions, containerized applications using Docker, and deployed production systems on AWS (EC2, S3, Lightsail).
- Enforced code quality and maintainability using SonarQube and structured code reviews.
- Mentored junior developers and led Agile ceremonies using Jira, driving predictable delivery and team accountability.

Bizycorp | Remote, Canada **Mar 2023 to Feb 2025**

Web Developer

- Engineered scalable full-stack applications using React.js, PHP, Node.js sand MySQL, with a focus on clean architecture and high performance
- Built and integrated headless CMS solutions to manage dynamic content across web platforms
- Implemented responsive front-end interfaces and seamless API integrations, ensuring smooth real-time data flow and user-centric experiences
- Led deployment workflows using Git, CI/CD pipelines, AWS EC2, Google Cloud, and Docker, delivering secure and efficient releases

Ebeyonds | Pannipitiya, Sri Lanka **Nov 2021 to Dec 2022**

Associate Front-End Developer

- Built responsive, SEO-optimized web interfaces, HTML email templates using React.js, JavaScript, Bootstrap, CSS Modules, and Sass, ensuring performance across all devices and browsers.
- Engineered scalable frontend architecture with Redux and RESTful APIs, using Salesforce to manage project tasks, timelines, and team collaboration.
- Implemented dynamic content workflows using headless CMS platforms and optimized performance
- Collaborated with design and backend teams, built accessible and brand-consistent UI components, performed cross-browser testing, and deployed efficiently using Git, FTP, and cPanel

V.S.Information System | Colombo 05, Sri Lanka **Aug 2021 to Nov 2021**

Intern Hardware Engineer

- Proficient in troubleshooting and repairing notebooks, desktops, and servers. Advanced diagnostics of hardware components (circuit boards, processors, memory cards), resolving network issues to ensure optimal system performance
